To Whom it May Concern;

Re: Randy Blain/Randy Blain Construction Ltd.

We were first introduced to Randy Blain in December 2009 when we were in the middle of our construction project to build a new summer log home in the Muskokas. At that point in time, we were experiencing difficulties with our project manager with respect to times lines and the progress of construction. We strongly felt the need to take over the project ourselves but we were very reluctant to do so as we were unfamiliar with the process and tradespeople in the area.

Soon after Randy started to work on the finish carpentry of the house we related that here was an individual that could take our project to a successful conclusion on our behalf. We found Randy to be very knowledgeable, dependable and professional at all times. He is a 'hands on' individual highly organized and consistency displayed sound judgement and strong time management skills. The quality of workmanship is exemplary. His ongoing communication with us was key to the effective completion of our home and his interface and discretion with the other trades was instrumental. In summary, it was a pleasure to deal with Randy and his crew.

We would not hesitate to use Randy again for all of our future construction projects, from start to finish and would highly recommend him to anyone contemplating a construction project of any magnitude.

Yours truly,

Beverly Scott
